

## ESSENTIAL DECK CLEANER

FOR PROFESSIONAL USE

**5L** **25L** SKU: SC4U\_ERC\_DEC05 / SC4U\_ERC\_DEC25

### DESCRIPTION

**Powerful outdoor cleaner for decking areas that Re-invigorates dull, grime covered wood**

SC4U ESSENTIAL DECK CLEANER is a high performance cleaner specially formulated for cleaning areas of wooden decking. It is also suitable for cleaning other outdoor hard surfaces including artificial decking and garden furniture. Simply apply and leave for 2 hours and then wash off. It will quickly remove layers of dirt and grime as well as green algae, lichen and black spot, even if the decking has been left unmaintained for long periods. Unlike acid based cleaners the alkaline based solution will not damage wooden decking. Apply neat on areas of heavy surface contamination, or dilute 1:1 for less dirty areas.

### HOW TO APPLY

1. Before use, remove any loose debris from the decking area and ensure you have adequate personal protection; i.e gloves, suitable protective eye-wear, face mask & clothing.
2. **Essential Deck Cleaner is to be used neat or diluted 1:1 with clean water - always perform a small test area to determine suitable dilution rate and dwell time.** Carefully transfer the cleaning fluid from the bottle to a pump sprayer or watering can. If these containers are not available then cleaning fluid can be used directly from the bucket. Apply generously.
3. The cleaning fluid needs to be left on the surface for at least an hour, during that time the surface **must not be allowed to dry out.** If necessary mist with additional cleaning fluid or with clean water to prevent the decking from drying. Work the area(s) of staining with a brush, if necessary, but ensure the surface remains wet at all times. After at least two hours dwell time, the treated area should be washed down with clean water first to neutralise the cleaner before then power washing off for perfect results. Please note the cleaning fluid can harm or possibly kill vegetation so try to avoid washing off onto garden or lawn grass. If this unavoidable then rinse with plenty of clean water to dilute the cleaner.
4. **In areas of heavy soiling and engrained dirt it may be necessary to extend the dwell time of Essential Deck Cleaner to up to 4 hours or overnight where necessary, before power washing off. To achieve perfect results on aged, stubborn black/white lichen spots, test a small area to ascertain the required dwell time necessary to remove the marks - then follow the instructions above. 2-3 applications may be needed.**

**Please Note:** Essential Deck Cleaner contains a chlorine type agent as an active ingredient and will stain fabrics and sensitive materials. Take special care to avoid contact with fabrics & tarmac during application. The fluid might cause slight lightening of some surfaces - always try product on-site in an inconspicuous area prior to use.

### COVERAGE

Up to 50m<sup>2</sup> per 5L container when diluted 1:1.  
Coverage varies depending on surface contamination.

### USAGE GUIDELINES

Dwell Time	Applications/Coats	Application Method	Dilution
2-4 hrs	1-2 applications	Mop/Sprayer/ Roller	1:1

### PRECAUTIONS

#### KEEP OUT OF THE REACH OF CHILDREN & PETS

EUH031: Contact with acids liberates toxic gas. H302: Harmful if swallowed. H314: Causes severe skin burns and eye damage.H400: Very toxic to aquatic life.

P102: Keep out of reach of children. P260: Do not breathe mist, vapours or spray. P262: Do not get in eyes, on skin, or on clothing. P264: Wash skin thoroughly after handling. P273: Avoid release to the environment. P280: Wear protective gloves/protective clothing/ eye protection/face protection. P301+330+331: IF SWALLOWED: rinse mouth and do NOT induce vomiting.
