

ESSENTIAL PERFECT GROUT

237ML SKU: SC4U-PG-237 (BRO/BLK/COF/SAN/LIM/IVR/WHI/LIG/MED/CHA)

DESCRIPTION

Re-colouring sealant for all grout applications

SC4U ESSENTIAL PERFECT GROUT COLOUR SEALER restores and renews wall and floor grout to a better than new condition by sealing, protecting & re-colouring aged, dirty grout. Available in 10 popular colours.

Perfect Grout offers unbeatable coverage and long-term sealing power. Don't waste time & money stripping tiles and grout, simply apply a new colour with our easy formula and your grout will look better than new.

DIRECTIONS FOR USE

- 1) Make sure the grout joint is clean and thoroughly dry before applying Stonecare4u Perfect Grout colour sealer, where necessary use a grout cleaner before application.
- 2) Shake bottle & mix well before use. Apply product thinly onto the grout joint using a brush or sponge working it evenly onto the surface. Wipe away any sealer from the tile surface instantly or within 60 minutes of application.
- 3) For best results apply two coats allowing 1-2 hours drying time between applications. Allow a further 48 hours drying time before wetting (using shower room) or cleaning the treated floor area.

PRO TIP: If using more than 1 bottle of a single colour for an application, mix all material together to ensure colour match and consistency.

IMPORTANT NOTES

CAUTION: This product is not recommended for use around porous surfaces i.e. unglazed tiles and natural stone surfaces as it could permanently stain.

Important: The colour chart must be used as a guide. Due to the original grout colour, texture, grout width, artificial and natural lighting the finished colour may dry slightly different once applied. Always do a small test prior to use to check suitability.

CAUTION: Poor application, applying the product too heavy or thickly onto the grout joint can result in blistering, cracking and de-bonding of the colour sealer.

SUGGESTED FIRST AID PROCEDURES

EYE AND SKIN CONTACT: Flush thoroughly with water, if irritation persists seek medical attention.

IF INGESTED: Drink 1 to 2 glasses of water, do not induce vomiting and seek medical attention.

STORAGE INFORMATION

Product shelf life is 36 months when unopened and stored at room temperature. Store product in original container only. Close cap on container after each use. Use only when surface temperatures are between 50° F – 90° F (10° C – 32° C).

COVERAGE

3-15m² per 237ml bottle

This will vary dependent on tile size & grout width.

TECHNICAL INFORMATION

Product SDS sheet available to download from our website.
